LONG VERSION

We play melodious, energetic mix of punk/ska/reggae/ folk enriched by the sounds of a trombone and an accordion. Our lyrics are about prejudices, politics, our feelings or they are just funny and stupid... anyway – it's all about what you can't find on the radio or TV.

After 11 years of punk-adventures, we have 2 CDs and 1 tape (edited by Pasazer - the biggest polish alternative editor and distributor) A lot of our songs are also on a different compilations CDs like "Let's kick racism out of football".

We've played at "Przystanek Woodstock" – the biggest polish music festival. Every year there are more than 200 000 people present. We have also played at Antifest and Puntala Rock (some of the biggest punk open airs in Central Europe and in Scandinavia) but we will also never forget all our small shows, especially these which took place in strange places like prison, a swimming pool, a dam or a dance club with a striptease-pole in the center of the stage. Those were concerts prepared partially by us, and partially by people like us. We have played more than 900 gigs in 9 countries. Of course we play most of the concerts in Poland, Czech Republic and Germany because we live in Poland near the borders of those two other countries. We have had concerts with really big bands like: Exploited, Toy Dols, GBH, Asta Kask, Wasted, NVU, Oi Polloi, Zemezluc, La Fraction, Shelter, Lama.

In March 2008 CD "Reklamy na niebie" was edited by ROCKERS PUBLISHING. CD was promoted by video "PiekłoNiebo".

Since September 2008 Leniwiec has 2 new musicians and now the 6-Person-Band shows how punk, reggae and ska music can sounds!

In February 2011 Mystic Production edited CD "Droga". This continues to be a positive climates playing punk, reggae and ska, but the team is able to surprise listeners. Surprisingly, it is certainly a new and energetic sound, enriched by a female vocal, solo guitar, saxophone and trumpet. But this is not the end of the surprises - apart from the typical for our band climates punk-reggae-ska on this album you can hear the strong influence of folk music. CD is promoted by video "Droga" (with geuststar Jacek Ziobro) and "Helena"

More „soft” music you can find at our last two albums **"Rozpaczliwie wolny – Piosenki Edwarda Stachury"** and **„Raj"**. It is still punk/ska mix but a bit modern and softer than at older albums.
